Make Your Own Union Bug

What is a union bug?

A union bug or label is a symbol that tells us a product was made by unionized workers. This means that the workers who made this product have a say in their wages and working conditions through their union.

Why is it called a bug?

The term bug refers to the size of the symbol, which is often small, like a fly.

Can you spot AFSCME's bug on this page?

Look for the union bug!

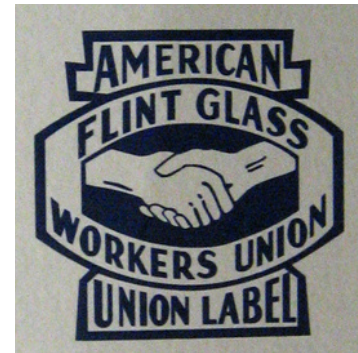

When we shop, we can support union workers and find high-quality products by looking for a union bug/label.

Making a Union Bug

Union bugs can include the union's name, location of their work, shop number and a drawing or graphic. **What can you include in your union bug?**

"Allied Printing Union Label from Lafayette, IN @skylasborhn's home town." by svanborn is licensed under CC BY 2.0

"American Flint Glass Workers Union Label" by Beige Alert is licensed under CC BY 2.0
